Testimonials: EMORY & HENRY COLLEGE, VA.

The Arithmetics sent me were duly received. 1 The Arithmetics sent me were duly received. I have carefully gone through them, and am very much pleased with them. They seem to me to be very well adapted to our American school system. I like them for their methodical arrangement, and because the Practical Arithmetic is very PRACTICAL. I like them because, while they are adapted to those students who expect to advance higher in mathematics, they are specially suited to that large class who never have the opportunity to advance any further than Arithmetic.

C. E. VAWTEB,

Professor of Mathematics. Professor of Mathematics,

VANDERBILT UNIVERSITY. NASHVILLE, TENNESSEE. I am most favorably impressed with the excel-lence of this series. The authors give plenty of good Work in numerous well graded exercises, and leave the theory to be explained by the judi-cious teacher when the student is able to compre-hend it. The judisious arrangement of oral and written exercises I regard as an excellent feature, and have no doubt these books will prove accepta-ble to every honest teacher. ble to every honest teacher, WM, LEROY BROUN,
